No 2,793—Eleventh Year. BUENOS AYRES TUESDAY, SEPTEMBER 5, 1871. Circulation, 3000.

MAUA BANK,

101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency in which case forty-eight hours previous notice is required to begiven to the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m till 3 p.m.

MIXTURA PARA TERCIANAS
DE JAYNE,
A CERTAIN AND EFFECTUAL REMEDY
For Fever and Ague, Intermittent and Remittent Fevers, &c.

This class of diseases, so common in all part of the world, and especially prevalent in malarious districts and vicinage of water courses, are almost invariably accompanied by more or less derangement of the liver, and frequently by a defective action of the digestive organs.

The mere breaking of the Chill is but a step towards completing a radical cure. The various organs of the body, especially the stomach and liver, must be brought to a healthy and vigorous condition before a permanent cure can be established, and this fact has been specially kept in view by Dr. Jayne in his treatment of these complaints. The use of Jayne's Ague Mixture in conjunction with the Sanative Pills, as prescribed in the directions which accompany each bottle, will not only

Break up the Chills,

But restore the system more particularly the liver and stomach, to a sound condition, and so prevent a relapse of Fever and Ague, by thoroughly

Eradicating the Disease,

And the best evidence of this is the invariable success which has always followed the administration of these remedies, as attested by the certificates published annually in Dr. Jayne's Almanac, and the wide-spread popularity of the Ague Mixture in those districts of the United States, where these diseases, for which it is adapted, most prevail.

All Dr. D. Jayne's Family Medicines are prepared only at 242 Chestnut-street, Philadelphia, and are sold by Druggists everywhere.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

PURGATIVE PILLS,

Perfectly tasteless—Elegantly Coated.

'Materia Medica' contains, in its repertoire, many purgative and cathartic agents that, for ordinary purposes, opens the bowels, and through what is called a 'peristaltic' movement, purges from the alimentory canal the fæces, and this is all. Such agents, for the purpose of cure, or removal of any settled cure, are perfectly useless.

Dr. Radway has completed one of the most essential discoveries in medical chemistry—in the combination of vegetable substances, for the purpose of a Purgative, Aperiant, Counter-Irritant, Alterative Pill, that can be taken or administered with the absolute certainty of securing thorough expulsion of all decayed and decomposing element of the human body, and also safe to take in the most malignant of Eruptive Fevers. In cases where the mucuous membranes of the internal viscera are suffering from Ulceration, Inflammation, or from

LIVER
Gastric, Biliary, Pancreatic Complaints,
Dr. RADWAY'S PILLS

Supply the only Vegetable substitute for CALOMEL OR MERCURA.

In Radway's Pills you have one medicine that will secure quicker, more thorough and better results than will be gived in from three or more different prescriptions of the medical practitioner. As a proof of this—You are seized with a bilious attack! Doctor prescribes blue pills or calomel. Next, come drastic aloetic pill or powders, to work off the effects of the blue pills this prostrates you, and a tonic is next given, to a gentle aperiant, whereas one dose of Radway's Pills will do all the work that the three or more prescriptions are given for, without running any risk from mecurialising or salivating the system.

Radway's Pills.

In Radway's Pills the true principle of purgation is secured—not alone to the office of dismissing the fæces and excrements from the bowels, but these rumors that are checked or stopped in their passage through the Skin, Kidneys, Lungs, and all excreting and secreting functions; for if these excrementatious secretions belonging to the skin, liver, lungs, kidneys, are interrupted in their escape, they become products of decay and decomposition, and must be purged from the living body through their proper channels; hence the purgative qualities of Radway's Pills extend to the secretions of the Skin, Kidneys, Diver, &c.; whereas not one of the advertised Pills claim to act beyond the bowels.

How to take Radway's Pills.

Their daily use.

In doses of one or two pills, by all persons of a full habit of body, subject to giddiness, rush of blood to the head, palpitation of the heart, and all those subject to fits, will not only keep the blood from becoming congested or clogged up in the blood vessels, but will equalise its circulation, and prevent sudden attacks of apoplexy, disease of the heart, congestion. Persons who will take one of these Pills every day will not suffer from Head-aches, Dizziness, Hysterics, Fainting Spells, Pains around the Heart, and a hundred other disagreeable symptoms.

DYSPEPSIA.

One of Radway's Pills, two or three hours before dinner, taken daily, will keep the system free from Dyspepsia, Constipation, Costiveness, &c. &c.

Bear in Mind,

Radway's Pills are the only purgative that will secure an alterative, diuretic, sudorific, aperiant, and tonic influence.

They are the only vegetable substitutes for Calomel or Mercury.

They promote the secretion of bile, and withdraw it from the circulation.

They assist, through their nutritous properties, the chyme and chyle, and gastric juices in the process of digestion.

They are elegantly coated with Gum, perfectly tasteless, and free from smell.

CITY OF RIO'S MAILS.

Yesterday the fine Lamport and Holt's steamer City of Rio, Captain Hairby, arrived in port, bringing a large cargo for this port. The following is our special correspondent's resumé of news:—

London, July 31st.

A cloudless and lovely day in London. It is to be hoped that the sun is shining with equal splendour on the Cathedral of St. Patrick. The Irish metropolis is to-day glittering with flags and brilliant equipages, and the reception of the Princes promises to be characteristic of the gay and warm hearted 'Dobblin.' It is feared that the Duke of Cambridge cannot join the royal party, and indeed it is unfortunate that the festivities should have taken place before the close of Parliament as with the impending vote of censure on the Government in the House of Lords this evening and the possibility of another in the Commons should the vote be passed as it is expected by a large majority, the whips in both houses are busy, and there is no chance of the members running over to Dublin.

Plans and drawings of the beautiful estate at Killiney Hill, to be sold in the Landed Estates Court next spring and the property of Mr. Robert Warren, have been forwarded to the Queen for inspection, in the hopes that Her Majesty will select this unrivalled marine residence as a Royal home in Ireland. Such a residence will be all the more necessary when the federal or 'home rule' party have gained their objects; and they will do so when the ballot is law. Why should they not? Mr. Gladstone in his speech at the banquet given on Saturday evening at the Mansion House to the Ministers, said that England had not a difference or controversy at this moment with a single foreign country. Why should she have with Ireland, which I am persuaded will always be true to the Old Country. The federalist notion is not unlikely to be taken up by the Scotch people; for the Scottish members go home in a very bad humour with the way in which their bills have been treated by our overworked Parliament. As for England if she could get rid of Scotch cases of appeal in the House of Lords and of the Irish and Scotch peers who always vote with the Conservatives, and of Irish questions in the House of Commons, federalism would be a blessing. As to disunion it is practically impossible, as England and Scotland are one people of the same race, religion and language, and the Irish know their own interests too well to kick against geography.

I see you give in the STANDARD a 'flaming' account of the burning of Paris and of the atrocities of the poor Communists. By this time you will have cooled down, like the rest of the world, and will be more inclined to accept the accounts I have sent you. The municipal elections, in spite of the siege, and the abstentions of the Communists from fear of arrest, are, nevertheless, 'Red'—and reddish is your only wear, do what you will. Thiers is obliged to yield on all points, and particularly in his protectionist notions. He and his friend Pouyer Quertier find the facts too strong for their private opinions. Free trade has triumphed, and so will the proletariat revolution in England as in France, in spite of the House of Lords or Bishop Dupanloup.

Talking of exaggerated accounts, your paper is not the only sinner. The accounts of famine and cholera in Persia given in the *Times* have to-day been publicly denied by the Persian Minister. He informs us that there is nothing alarming in the sanitary condition of Persia; and as to the famine, he says briefly, "that's a lie!" and he apologises for the expression by saying no other would suit.

The number of 'Blackwood' for August contains a remarkable article on our National Defences, written by General Adye. After the 'Battle of Dorking' and other nonsense of the kind, it is well to read a serious essay on the subject by a man of known talents and experience. General Adye does not appear to participate in the fears as to our military position; he dwells on the superior power of this country in its manufacturing material. We have lately, he says, distributed 150,000 Sniders to our volunteers, and since the 1st of January we have turned out a field battery of muzzle-loaders every week, and in the same period we can make two millions of cartridges and 4000 small arms. The royal gun factories can turn out 6000 tons of guns a year, and the royal laboratory 200 tons of projectiles a week. He recommends, of course, the reorganization of the three services—the regulars, militia, and volunteers—under professional officers, and subjected to military discipline. He advocates personal service and sacrifice amongst us all, and deprecates the tendency common amongst the vulgar that our national defence is simply a question of money, and in the meantime we can give ourselves up to domestic luxury and the sordid pursuit of wealth.

General Schenck, the American Minister, made at the banquet at the Mansion House a true and suggestive observation. Speaking of the common ties of the two countries, and addressing, as he said, his grandfathers and grandmothers, he remarked that Great Britain and America joined could defy all combinations.

England, France and Austria are at this moment negotiating so as to be ready for common action in case of the Eastern question re-opening. This is a matter of great political importance, but it cannot be supposed that the negotiations have any determinate character, as an alliance of France with Russia is always a possibility in certain cases. The position of the question shows the cross interests and utter dislocation of European politics which defy prognostication.

Captain Till, the gentleman who was stabbed by the lady with whom he resided at Fulham, is in a very dangerous condition, and the coming enquiry is likely to be fruitful in sensational and delicate revelations, rivaling the Moon-Davey case of which it was evidently a copy, and another instance of morbid imitation so common in criminal annals.

There is still the rumour afloat that the Counsel for Sir Roger Tichborne have received information as to the existence and whereabouts of the real Alfred Orton.

Read 'Bond Street to Baden' in the *Daily Telegraph*. The writer is evidently that comic philosopher George Augustus Sala. He is very hard on the Germans 'chez eux.' He talks of the 'common lot of men' and thinks the expression must allude to the Germans, who, except they are in uniform, look like Muggins in his Sunday clothes.

ROSARIO.

[*From our own Correspondent.*]

September 3.

The Government of Santiago has had a good opportunity of showing a cheap liberality. The foolish attempt of ex-Governor Montes ended in thin smoke; in fact it was a case of 'Parturunt Montes' etc. The actual Government of Mr. Frias, backed of course by the omnipotent Taboada, has shown so thorough a contempt of the rebels that it has pardoned them all. So ends the Santiago imbroglio, which. Gen. Arredondo wanted so much to have his fingers in.

Gold! gold! The mine that Mr. Lane, of Rosario, is working, some 20 leagues from Cordoba, is paying very handsomely. The result of the crushed ore came down a day or two ago in the shape of several bars of pig gold. Mr. Lane has a steam engine and machinery that can crush five tons per day; but there is also a fine water power capable of crushing 100 tons per day. We cordially felicitate Mr. Lane on being the first to develop the undoubted mineral riches of the Sierras of Cordoba, which, besides gold, contain rich mines of silver, copper, and lead. With the certainty of plenty of quartz, containing an ounce and upwards of gold to the ton, it is only a question of machinery, which, driven by water, will take out the gold at the cost of six or seven dollars per ton, or even less.

We are all very much surprised here at the rabid attacks of the Minister of the Interior against the Central Argentine Railway. Apart from the complaints indigenous to railways all over the world, no one speaks against the Central Argentine, except some people in the interior, whose ideas of a railway are about as clear as mine are on the system of tolls on the Grand Canal of China.

When the shares go down fifty per cent., and the good faith of the Argentine Government is impugned on the London Exchange, they will find out their error. There will not be much probability of the agents placing the rest of the loan; and the proposed loans of Santa Fe, Cordoba, and other places might just as well be laid on the shelf. I, as a holder of some forty shares, subscribed for in this country, certainly have nothing to thank the Government for, as I shall probably have to sell them for less than half their cost.

We have a crow to pick with Santa Rosa this year. Notwithstanding the unwonted magnificence of the rites dedicated to her in the chapel that bears her name, when a whole battalion of infantry did the honors, and the market was cleared of 'cohetes,' she has not deigned to notice us in any other way than to pelt a few poor harmless lambs with half a dozen diminutive hailstones. The whole camp is as dry as the parchment on which is written the Bull for the canonization of the saint. I rather pity the mental sufferings of Mr. Perkins, who I am shocked to say, thinks more, I believe, of the welfare of his colonists than of all the saints in the calender. However, it is the 'haciendas' that are suffering more than the farms. As yet the drought has not done any damage to the wheat, of which a very great breadth has been sown in the province this year: but the ground is so hard with the spell of dry weather, that in the case of virgin lands it is almost impossible to break them up for the summer crops. It is to be hoped that the next new moon will appear with her horns downwards, the Indians' sign of wet weather.

The ceremony of laying the foundation stone of the Catholic church at Bernstadt took place last Sunday. Five of the spacious carriages of the Central were brought into requisition to take the Rosario people out, and on arriving at the colony we found about a thousand people assembled. The little town was decked out with flags, and I was somewhat staggered to witness the progress it had made since my last visit, some three or four months since. The plazas are neatly inclosed and planted with trees, and a great part of the Boulevards is also lined with trees. At least a dozen new brick houses had been built since my last visit.

The church, a good sized building, had already been built up eight or ten feet, except in one corner, where the hollow stone was placed.

The most notable part of the ceremony was a sermon preached by a young Franciscan monk from San Lorenzo. Without touching on dogmatic questions, he preached a purely moral sermon, or rather discourse, with an eloquence that actually electrified the audience. As for myself, I was taken by surprise, as the style in use in this country amongst the friars, and even amongst the clergy, is by no means enticing, polished, or charitable.

The Gefe Politico, Don Servando Bayo, with Mrs. Perkins, were sponsors, or 'padrinos,' as they are termed in this country.

The good people of the little town did their best to entertain the visitors, and Mr. Brofft, the overseer, in a handsome suit of black, did the honors of a lunch prepared for the Gefe Politico, the ladies, and the particular friends who accompanied the superintendent, Mr. Perkins. I noticed this gentleman escorting the Gefe about the town, probably pointing out the best sites for schools, or possibly persuading Mr. Bayo to buy some town lots. I take pretty good care to keep clear of Mr. Perkins, for I believe he has colony-on-the-brain, and if he once takes you by the button-hole and commences on colonization, there is no alternative but resignation. I think I remarked a resigned expression on the face of the Gefe Politico.

A good sale of property has just been made in Rosario. Mr. Thomas Peñaloza has sold his block of houses, consisting of three large dwelling houses and a warehouse, to an English house of business, in the sum of seventy-five thousand Bolivian dollars. The rental brings twelve per cent. on that sum. We are to have, it appears, another English wholesale dry goods house in Rosario.

The swallows made their appearance a few days ago; but it is evident the publisher of their almanack had made an error, and the poor birds had to return to a warmer region.

The health of the city is very good, notwithstanding the severe and frequent changes of the temperature. A number of people complain of colds, lumbagos, and catarrhs, but the bill of mortality is uncommonly limited.

The Provincial Chambers have caused great dissatisfaction by dissolving without voting the project of the branch of the Provincial Bank of Buenos Ayres. We have still to groan under the pressure of our local banks, and pay their worships 15 per cent. for the money they so begrudgingly lend us, even at that rate.

By an advertisement I see that the foreign Club is to be opened on the 6th inst. I understand there are already upwards of one hundred members inscribed. This shows well for our foreign population. I suppose on Wednesday night there will be sundry bottles of champagne cracked in honor of the Rosario Club de Residentes Estrangeros.

The Minister of the Interior has just given another instance of his amiable character. He has ordered the connecting wire between the telegraph office in town and that at the Central Argentine Railway to be taken down. Could there be a clearer proof that the scandalous measures he is taking with the Company are nothing more than the emanation of a poor and unstatesmanlike pique, and not a desire to benefit the public?

Yours, &c.,
LEO.

RIO JANEYRO.

THE GERMANIA CLUB.

The golden 50th anniversary of the Germania Club was celebrated on the 20th, with a grand dinner attended by all the members of the association, and by some invited foreigners. On the 26th a great ball also is to be given.

The Teutonic race can fairly boast of possessing one of the first associations of South America, and it would seem as though the unitarian and patriotic spirit of Prince Bismark had long been actuating here to unite into one fast-bound and strong faggot the scattered stakes of German nationality elsewhere so divided, to create a German institution, not alone as an element for social intercourse, but also for the protection and relief of unfortunate members of the great German family.

It would be creditable to their Anglo-Saxon brethren if they likewise could boast of a similar institution for the promotion of sociality and union Unfortunately, we poor British are too much divided into social castes for the strongest feelings of nationality to have power to promote a social union. Thus, the caste of the important merchants, which deals in refined and aristocratic dry goods, would not condescend to associate on terms of equality with the caste of the great exporters of coffee, which deals in unrefined agricultural produce, while both would certainly scorn association with that of the retailers, even of dry goods. But among the Germans of Rio Janeyro—diplomat merchant or clerk—caste snobbery has no rule, and all unite for the common good of Germans.

BANDA ORIENTAL.

Higuerilas, Sept 1.

The Government forces quietly took possession of our town when Colonel Ordoñez passed here some two weeks ago, but there always remained a small force of the Blancos in the neighboring montes. A few days ago Major Galarza, from Dolores, a really active and intrepid officer, came down upon them suddenly, and drove them off to other parts.

We have no important recent war news.

Mr. Dymoke, the engineer of the railroad, charged with the exploratory survey from Santa Lucia to this place, arrived here two days ago, and leaves to-night in the Silex. Owing to the difficulty of getting competent guides through the camps, on account of the war, he has had a fatiguing time of it, and I imagine his report will not be a conclusive one.

Some people here act as though they thought the land was going to run up to the price of city lots, and the Junta Comision has had an inundation of petitions for building lots and for chacras.

The brick-yards at work in this neighborhood, and the few bricklayers we have here, could not in three years, time build houses enough to secure the titles to the town lots asked for. It don't cost much to make a 'solicitud,' and so long as they can't buy bricks or get bricklayers, they can't be forced to build houses.

The favorable prospect for an abundant wool crop, and the favorable prospect for good prices for wool have had some influence in this movement, and the recent establishment of the National Central School of Agriculture at this place has also had some influence; but the principal spur to this speculation is, beyond all doubt, the hope of the railroad to this place being in a time a realised fact, and that the railroad will develop commercial business in our magnificent and convenient port.

CORDOBA.

GOLD QUARTZ CRUSHING IN THE DEPARTMENT OF CRUZ DEL EJE.

Readers of the STANDARD are promised an account of mining operations in the neighborhood of La Rioja, from the able pen of Mr Crawford. The prospecting for gold now being so vigorously carried on about thirty leagues west from Cordoba will shortly command greater attention than the before-mentioned, on account of its intrinsic merits, though if any further productions on this subject creep into the STANDARD, their literary merits will doubtless be less presentable than those which are to appear from La Rioja.

The prospects of the Sierra quartz gold district, in the vicinity of Cruz del Eje and Soto, are so brilliant that it is possible a few scraps of intelligence may not be unacceptable to the multitudinous STANDARD-reading public, particularly as the opening up and exploration of this gold producing district is eminently due to the exertions and enterprise of our own countrymen.

Generally, the public is very sceptical on the subject, a fact no doubt attributable to the failure of the first party of Englishmen who took out claims on the Rio Caudelaria, a failure consequent on the dissolution of the company; and that another gentleman was temporarily compelled to abandon his mines owing to a long course of ill health, which ill health he fortunately no longer suffers from.

The most important establishment on the Rio Caudelaria is that owned by a company of foreign residents of Rosario; the premises are more extensive, a larger capital has been invested, quartz is now being crushed, and the results will be known in Buenos Ayres in a few days. It is not four months since the indefatigable manager of these mines first made his appearance in the district, and, considering the difficulties that had to be surmounted, the rapidity of organization and completeness of the establishment is highly creditable. A very ingenious 'potrero' has been made in close proximity to the house; it is constructed entirely of rock, and has two openings, one for the entrance of animals, the other for their exit; when they make the latter they find themselves in a lane, formed on one side by the 'potrero' fence, and on the other by that of the garden, which lies between the lower side of the 'potrero' and the crystal stream. Mankind says it is a long lane that has no turning; perhaps the brute creation thinks so too; at any rate, at the turn of this lane they arrive in the 'potrero,' one corner of which just touches the river, so that, although there is no water actually in the enclosure, animals can go to drink without being driven; neither can they stray, on account of the inaccessibility to the rocks at that point.

Nature has greatly assisted man there, and a man is there who has known how to avail himself of her assistance to the fullest extent; nature is bountiful. At another point is the deepest and most extensive pool for leagues length of this picturesque river, with rocks going down precipitously (as did go precipitately down the other day a bullock) into the water, and various points from whence tremendous headers can be taken into the seething flood in the most approved 'Colleen Bawn' drama style.

The compact arrangements of the establishment excite admiration; the form the garden large trees had to be grubbed up, and the underwood cleared away. At the extremity of the garden furthest from the house the river has been partially dammed; the excess of water flows through the 'acequia' which traverses the garden, and finally reaches the point where the quartz crusher is stationed, whereit is received in the cups of the battery troughs—thus, the same channel will be utilised for irrigating a considerable portion of the garden and supplying the engine and battery. Six weeks ago there was nothing to be seen but what appeared an ordinary establishment of the country, though rather better arranged than those usually are in this part. Since that a bed for the crusher has been made, the crushing machine erected, steam engine of Ransom and Sims bought and brought up from the station on the Central Argentine Railway and delivered at headquarters, for which purpose it has been necessary to make a road of some leagues length through a very difficult country, a task which has been carried out with economy and success. An amalgamator has been made on the premises—the shoe plates, troughs, through and over which the crushed metal runs; and many other incidental preparations made, too numerous to detail. The first trial of the machine was made on August 1st, and work properly commenced the 3rd inst. with hitherto satisfactory results, particulars of which will be hereafter given.

THE WANDERER.

(*To be Continued.*)

EDITOR'S TABLE.

The splendid steamer 'City of Rio Janeiro' arrived at Montevideo on Saturday, and in this port yesterday morning. Her dates are from Liverpool to the 6th ult., two days later than the last steamer. The letter of 'Our Own Correspondent' in London, published in another column, is of interest and some importance. It appears that votes of censure on the Gladstone Cabinet had considerable chance of passing both Houses of Parliament; that the opposition to granting the annuity asked by her Majesty for Prince Arthur was acquiring unlooked-for force; H.R.H. the Prince of Wales entered Dublin, where great preparations were made to receive him, on the 31st July; M. Thiers has been named President of the French Republic for two years; and the final result of the elections proves eminently favourable to the Government. The commercial intelligence by the 'City of Rio' is also favourable, River Plate produce maintaining full prices in all the European markets. Money is a drug in all the financial centres of the Old Continent.

The rush to the auction sales on the Flores road on Sunday was something extraordinary. Fully 10,000 people are estimated to have travelled over the Billinghurst tramway line. In our commercial column particulars of the land sales will be found.

The English papers to hand by the City of Rio contain the following information respecting the movements of the Emperor and Empress of Brazil. Dom Pedro had gone to Ireland and Scotland, having declared that he could not think of returning home without a peep at the Lakes of Killarney and the Highlands.—"The Emperor and Empress of Brazil, having paid a visit to nearly every place of note in London and the suburbs, proceeded to Birmingham on July 24. From Birmingham the Imperial visitors went to Chester, and from Chester to Liverpool, via Birkenhead. They have since visited Manchester, and will shortly proceed to Scotland and Ireland. From the United Kingdom the Emperor and Empress will, it is understood, proceed by Belgium to Germany, and, visiting Gotha, Berlin, Dresden, and Vienna, go down the Danube and by the Black Sea to Constantinople. Thence it is not improbable the Imperial tour may be extended to the Holy Land and Jerusalem. If so, the return route will be by Greece, Italy, France, and Spain, to Portugal, which last country will, of course, have especial interest for the head of the House of Braganza. The full realization of this programme will then terminate by their Majesties' return—probably by the Douro—to Rio in April 1872.

The Goths and Vandals at war in the Banda Oriental made a tremendous onslaught on the unfortunate Montevidean Telegraph line lately, carrying off three and a half miles of posts and wires. This was the cause of the long interruption in the service recently experienced.

Governor O'Connell of Queensland, Australia, has sent to the Argentine Rural Society, through Mr. H. G. MacDonnell, H. M. Chargé d'Affaires, a collection of 31 kinds of seed from that country, including the blue and spotted gum tree, 'tristania,' acacia, cycas, 'calophyllum,' sea palm, blue runners, Gregory flowers, &c. These have been 'scattered' amongst the following five members—E. Olivera, L. Pereyra, J. G. Lesama, J. Bisolto, and F. Madero. We have already acclimatised in the Plate two of the above plants, viz., the blue gum tree, to be seen at the Buschenthal quinta in Montevideo, and the blue runners at Ohio Park, Moron.

Mr. Oldendorff communicates a valuable paper on drilling culture by machinery to the Annals of the Rural Society.

On the 10th of July M. Vignon astonished the people of Chivilcoy by making what he calls a Pneumatic Well, which we believe to be no other than the Abyssinian Pump. It consists of a pneumatic tube 1¼ to 3 inches diameter. Mr. Vignon had driven down the tube 13 varas, having found water at 7. In presence of the Justice of the Peace, Municipality, local auctioneer and other authorities he commenced to work the apparatus in the Plaza with a mule, and the water came out clear as crystal, filling a half hogshead measure in 1 min. 50 sec. We may mention that Mr. Crawford, C.E., is taking some Abyssinian Pumps on his expedition to the Desert.

The gay appearance of town on Sunday attracted attention. Since the plague so much animation has not been witnessed on a holiday. All the railways had a full complement of excursionists; the Palermo road was crowded with carriages and equestrians, that to Flores with auctioneers and land speculators, while the various plazas in town afforded the working community a lounging place. The weather was everything that could be desired.

The busy hum of preparation for the races at Lanuz on Friday has commenced in fashionable circles. We understand that a strong muster of the fair Porteña 'elite' may be expected, and a marvellous display of Spring 'toilettes' may be looked for. The English community seem to have made up their minds to attend 'en masse,' so, weather permitting, the success of the meeting is now assured. The idea of a Race Ball has found immense favour amongst the fair sex. We are inundated with delightful little 'billets' on the subject, but they are quite too numerous to publish. One of our correspondents, who signs 'Gwendoline,' asks severely, "Why is the time too short to organize a ball, the simplest thing in the world, while there is enough to prepare that 'nasty feed' without which no race meeting is supposed complete?" Gallantry demands that we side with 'Gwendoline' in the matter, but what she styles a 'nasty feed' has its merits.

While Sir Roger Tichborne's junior counsel is rummaging Australia for Arthur Orton, the eminent butcher on whose production the 'cause celebre' seems to hang, a party has turned up in Brazil who may give some important evidence if subpœned. The *Anglo-Brazilian Times* says—

"Mr. Julio Francis Berrant, a gentleman of the highest respectability, residing now in the province of Minas Gareas, declares that he travelled with Charles R. Tichborne from Lima, that they resided together in Rio Janeiro, that Mr. Tichborne purchased some pictures and curiosities from him and forwarded them to his mother Lady Tichborne, that Mr. Tichborne sailed in the Bella for New York, which vessel was lost with all on board, and that he still holds a passport of Chas. R. Tichborne. Mr. Berrant's states that the rightful Mr. Tichborne was lost at sea, and therefore considers the present claimant an impostor. Mr. Berrant's statements tally with those of the claimant, although Mr. Berrant desires to contradict those of a man he believes falsely representing himself to be the Charles R. Tichborne drowned with the Bella. However this may be, it is evident Mr. Berrant's evidence is of the highest importance, and might dispel the mystery which seems the more to envelope the case the longer the suit continues."

The new Foreign Club at Rosario have taken and furnished very fine premises in Calle Aduana, opposite the Cafe de la Bolsa. The official opening of the Club will take place to-morrow.

We feel great pleasure in saluting our friend Mr. George P. Cranfurd, who arrived in town yesterday morning from Rioja; we are happy to find him in the best of health, his characteristic 'bonhommie' improved, if possible, by the trip, of which he intends to favour us with some particulars in a day or so. He reports the weather during his six weeks journey as warm and pleasant, a striking contrast with what we have experienced in Buenos Ayres.

The Minister of the Interior, Dr. Velez Sarsfield, has allowed his Anglophobia to carry him up to, if not beyond the bounds, in his dealing with the Central Argentine Railway Company. Last Saturday Dr. Sarsfield took on himself to address a telegram to the chief of police at Cordoba, ordering that functionary to close without an instant's delay the telegraph office which the Central Railway Company have opened in that city for the convenience of the public. The autocratic minister gives no reason for this 'le-Roi-le-veut' step, nor, we suppose, is he likely to offer any to the tame and too patient Argentine public. The Minister of the Interior has no more jurisdiction in the city of Cordoba than he has in London, the license to open the telegraph office coming from the Municipality of the town. His Excellency seems to have found this out too late, for on the following day he attempted to recall the order, but the company very properly refused the minister the feminine privilege of changing his mind, and have determined, we understand, to test the legality of Dr. Sarsfield's proceedings. Mr. Cooper, manager of the Central Argentine Railway, arrived here yesterday morning, having been called to town by the resident director, in consequence of this last eccentricity of the Minister of the Interior. We shall refer to-morrow, at greater length, to the fast and loose policy which it seems Dr. Sarsfield's intention to inaugurate in the public affairs of this country. We can find no explanation of his recent acts, but in believing that he has outlived both his fame and abilities.

The Rio papers give the following:—H. M. S. Gladiator, with Mr. Cobbold on board, paid a visit to Santos. While there, the officers gave a theatrical representation in aid of the funds of the hospital, which was numerously attended.

The U. S. frigate Lancaster, carrying the flag of Admiral Lanman, has arrived from Bahia and the Portsmouth is daily expected from the South, on her way to the United States.

Mr. George Nathan has returned after a temporary absence. His numerous friends celebrated his arrival with a grand serenade."

We perceive by the English papers that Denis Florence M'Carthy, Esq., the well-known Irish poet, has been granted £100 per annum from the Civil List. Much of Mr. M'Carthy's high fame rests on his unsurpassed translations from Spanish to English verse.

The latest news from the Banda Oriental state that the forces of General Borges, numbering 1,800, and those of the rebel leader Aparicio, to the number of 1,000, are very near each other on the Rio Negro, and that a battle is not unlikely.

The steamers Republica and Saturno collided in Montevideo harbor on Friday during the gale, but neither vessel suffered much damage.

The San Juan papers announce awful murders in the Cordillera, a whole family, including 5 children under 7 years old, being butchered by 'matreros.'

Some criminal statistics just published give the number of murders committed in Buenos Ayres from 1st April, 1870, to the same date in 1871 as 49. In all England and Wales during the same period only 15 were recorded.

The *Prensa* says that £2,000 have been collected in Genoa, by the Municipality of the city, for the relief of yellow fever sufferers in Buenos Ayres.

There is a startling bubbub in military circles, caused by the order of the War Office reducing 18 colonels, 15 lieut.-colonels, and 12 majors in one swoop to the half pay list. The Temple of Janus being closed for the moment, poor Mars is put out in the cold.

The bill introduced by the Provincial Government to raise ten millions of patacons, to defray the cost of paving, draining, and generally improving the city, passed the Senate on Saturday night. An amendment was proposed to reduce the loan to five millions, but on a division it was lost, and the bill passed the House in Committee with some merely formal alterations.

A friend just arrived from Cordoba informs us that the show of beasts (all 'lusæ naturæ,' except the alpacas) at the Exhibition is unique—so much so that he does not care to see it again.

We call the attention of our country friends to a sale of splendid Negretti rams, from the Jeppener estancia, to come off to-morrow at Cabral's stables opposite Standard Court, in Calle San Martin. Estancieros should not miss this opportunity.

Argentines are beginning to cut a figure in Europe as 'empresarios.' A gentleman who left this city some months ago in company with an Englishman, on a tramway floating trip to the Mecca of the monetary world, London, stopped at Lisbon on the way saying to his British friend that he "thought there was money to be made there." So it proved, for in a few days he obtained a concession for laying down tramways through the Portuguese capital, and which are now, we believe, in progress.

ON 'CHANGE.

	Sept. 4, 1871.
Ounces	400
Sovereigns	125
Patacons	25
National Bonds	71½

There was very little done in bonds to-day, people are waiting for the packet, and no one seems to know whether she will bring gold for the government or not, although it was known by advices received per City of Rio, that the Neva will bring £25,000 to Wanklyn & Co. As regards the probability of shipments of gold to the government, it is thought more than likely the packet will bring a remittance, inasmuch as there is now £68,000 paid up on the scrip, which is £18 10s. more than was paid up on the scrip at the sailing of the last English mail. The loan is quoted in the English market at a premium as high as 3¼, and all Rivor Plate securities are at the very highest rates. In the event of the packet bringing out a specie remittance to the government, a further advance in bonds is looked for by speculators, and at after hours to-day when it was generally known that a further call of £18 10s. had been paid up in London, there was a decidedly improved feeling in the market.

Exchange ruled to-day at from 50 to 50½; some bills were passed at 50½, but as yet very little business has been done.

There is now a great movement in the import trade, all houses are selling largely to country and provincial dealers. In the dry goods market there is a great movement going on, and in comestibles also. The sale of 10,000 barrels of Tennent's ale at reserved rates was announced to-day on 'Change; the sale was made by Brownells and Co., the importers of this brand, who also sold to-day 1,000 cases Hennessy's brandy at 8 pats 6 rls.

To-day the rams from the Jeppenor estancia arrived in town; the animals are in splendid condition, and can be seen at Cabral's yard in front of our office. The auction takes place on the 6th at noon. To-day the yard was crowded with parties inspecting these rams; they are pronounced by competent judges as some of the best ever reared in this country.

The Bond sales to-day were as follows—

For cash, nothing done.

Thursday 5,000 at 71½

Sept. 22, deliverable, 10,000 at 71½

Mr. Wells Hood, of the National Tramway, requests us to correct a statement in our last issue, to the effect that the National tramway Co. has drawn by this packet for £9,000 at 50½. Mr. Hood, as representative of the Company, assures us that since his arrival in Buenos Ayres the Company has drawn no bills of exchange whatever; but the brokers insist that the bills have been passed, we suppose for account of contractors.

On Saturday a sale of 50 shares of the Popular Argentina was effected at 160. The prizes which this Company will give at the next drawing will amount to 24,600 pats.

There was not much said on 'Change to-day about the land auctions on Sunday. The property on the Gauna road sold, we learn, tolerably, but it must be borne in mind that it is a good distance from the macadamized road and behind the railway. Suburban property really well situated sells well and is in great demand, but it must be well located.

The great auction of the Green property at the Lomas on Friday attracts much notice. The sites are admirably located and in a charming neighbourhood.

A very important sale of the best and principal house property in Rosario, is reported. The block of houses belonged to Sr. Peñaloza, and is in the best position in the town. The whole block was sold for 4,000 ounces. Messrs. Brownells & Co. and Ashworth & Co. the purchasers.

In discounts there is not much doing. Money rules very abundant, the banks discount everything, and first class bills are done with ease at 7 per cent.

It was authoritatively stated to-day that both houses of Congress have determined to pass the bill for a national bank. In the Senate the bill to the exclusion of all matter is to be discussed to-morrow. The charter is already framed, and as there is a sweeping majority in both houses in favor of the measure, the bill will be carried this session, and passed in time to send to England by the October mail. The only real question at issue is the basis of the bank; one of the first houses in London has offered to establish the bank on a purely specie footing, with branch banks in every province of the Republic, the legal domicile to be in the capital of the Republic, and the actual cash capital to be five millions sterling. This business has been kept up to the present very secret, but the debates in the house will bring out the fullest particulars. President Sarmiento and his ministers are all in favor of the measure, which, from what we can gather, may be looked upon as good as passed.

The sales in the Once were as follows—

There was more animation in sheepskins this morning—plenty buyers.

200 doz.	matadero	sheepskins	250
150		do	220
100		do	225
250		do	230
150		do	240–260
200	camp	do	160
140		mixed	120

The clearance at the Custom House was as follows:—

September 1.

American brig Virginia Dare, for Rio Janeiro, cleared by J. B. Hale & Co., 150 barrels pitch.

Spanish brig Amable Rosa, for Vigo, by Ochoa & Sons, 11,607 dry ox and cow hides.

Italian barque Luigia Rocca, Antwerp, by Rocca, 704 bales wool, 15 do sundries, 6 do skins, 11,920 dry ox and cow hides.

French barque Admiral Trehouart, Havre, by Marcelis & Laforgue, 958 bales wool, 24 do skins, 2,000 dry horse hides, 5 bales hair, 1,316 dry ox hides, 14 bales sundries, 3 cases merchandise.

The Montevidean papers mention that Baron Mauá is negotiating or has already concluded the sale of the Gasworks and Floating-dock at M. Video for the enormous sum of 5 millions sterling. It is also stated that he is trying to sell his immense estancias.

The hull and rigging of the British barque Sharon, lost off Fray Bentos, were sold by auction for $2,000 nacionales.

The M. Videan customs-receipts in August amounted to 349,284$.

The Franco-Platense circular of the 2nd says—"The succession of Mr. Duncan Stewart to Don Fernando Torres, as Finance Minister, is merely a change of persons, and we have yet to see whether any radical change or new programme is meditated. The task of reorganizing everything is serious, for all branches are in confusion. One good step has been taken in re-constituting the Junta Economica, forming a board of highly respectable parties. The rumour of a new emission of Home Bonds, 3rd series, will probably cause a sensation on the Bolsa, but we recommend bond-holders not to be alarmed.

Quotations of M. Videan securities—

	Aug. 26	Sept. 2
Home debt	60	60
Foreign claims	62½	62½
Land Co.	58	60
Mauá bonds	95	95½
Paper-money	14½	14½

The Platense loan looks well: the customs-duties received on account of it last month exceeded 38,000$, whereas the sum necessary is only $25,000, this leaves 13,000$ for amortization.

The *Telegraph* reports—5,000 American hides at reserved rates, supposed over 68½ rls. gold despatched.

Advices from Rio Janeiro, Aug. 28th report exchange very firm, 24 to 24½ private bills on London. Banks drawing at 24d. but no takers. Sovereigns at 10.500. Jerked beef, stock 41,000 qq. Rio Grande, and 144,000 River Plate.

The mails per City of Rio have brought the following mercantile advices:—

The wool sales closed on July 26. Prices have gradually hardened, and now show, on both super-scoured and fleece-washed, an advance from 2d. to 2½d per lb. on closing rates of April, May sales. The demand is expected to continue good. The succeeding series of sales are appointed for September 14 and November 23.

We are glad to note from the report of the London and Brazilian Bank, issued in anticipation of the meeting to be held on July 31, that the net profits of the six months's working exceed those of the previous half year, and that a steady improvement is manifest in the current business. It is to be hoped that the proprietors may see the policy of adopting the suggestion of the directors in the matter of reorganizing the bank upon the basis of the present accounts.

A company is about to be formed under the title of the 'Pressure Meat Preserving Company,' which may have an important influence not only upon the meat supply of this country, but upon cattle breeding in the vast regions of the River Plate. Mr. Honley, a well-known engineer, has discovered a plan by which, he says, meat can be preserved and exported in a state fit for consumption, even from our most distant dependencies. Flesh in its natural condition consists of about 75 parts of water and 25 parts of solids. Mr. Honley proposes to remove the greator part of the water, whereby the meat will be reduced to one-half of its original weight, without loss of substance, and will be preserved at the same time. The novelty in the undertaking is the employment of powerful pressure as means of making drying possible.

Messrs. Henry P. Hughes & Son, in reporting upon the third series of sales, which terminated July 26, state that the general attendance of buyers has been very large throughout, and wool being much wanted, biddings were made with unusual spirit: prices opened at a fair advance on nearly all descriptions, and increased as sales progressed. A large proportion has again been taken for export to the Continent, and notwithstanding their high protective tariff, some heavy orders for greasy descriptions have been executed for the United States; consequently, this class of wool has shown the greatest apparent advance, but the improved growth and light condition of most flocks must not be lost sight of. The demand for fine wool has certainly increased, although not to the same extent as for some other sorts. Our woollen districts, as well as those on the Continent, are well employed, and the trade altogether wears a very healthy aspect, and without anything unforseen should disturb it, there is enough to warrant the expectation of remunerative prices for the grower for some time forward.

Messrs. C. De Murrieta & Co notify that sixty bonds representing £10,300, of the Buenos Ayres Six per Cent Loan of 1870, were drawn on July 26, and will be paid off at par on October 1st next.

The John Peile, from Cardiff for Bahia, arrived off Ilfracombe July 23 with loss of side lamps; was supplied and proceeded.

The Ulysses, at Falmouth July 22, from Rio Grande, with foremast broken and main and mizen topmast carried away.

The crew of the Helene, German schooner were landed at Plymouth July 20. The Helena was on her passage from Rio Grande with jerked beef for Pernambuco, and foundered, June 4, in 25 S. 35 W. The crew were taken off the wreck by the barque Pride of Devon, from Iquique.

The tramway cars for the Lujan tramway we understand were made in this city by the firm of J. Hollig & Successors at their establishment 84 Calle Guarantias.

South Plaza, Sept. 2nd.

Mr. Ezcurra, our active and well informed Special Reporter at the South Plaza, sends us the following report of transactions and prices obtained for produce.

We recommend it to our readers.

Gran remate de carneros y ovejas sangre pura Rambouillet, de los animales mas notables que hay en el pais de la cria del Sr. Don Manuel Benavent.

Carneros Rambaullet de 'reserva' de los mejores que han venido de la cabaña Imperial.

Ovejas Rambouillet puras especiales para la formacion de una cabaña modelo ó para tropillas de establecimientos de importancia.

En nuestra casa calle Victoria 154
El pormenor se dara mañana.

El Jueves 7 del corriente a las 11 en punto se remataran a la mas alta postura y dinero de contado los mas valiosos animales, sangre pura Ilambooillet que se conocen en el pais, descendientes de la gran cabana imperial la que hoy no existe a causa de la guerra franco-prusiana.

Los carneros padres se venderan de uno por uno y las ovejas en lotes de cinco, diez, quince y veinte al gusto de los compradores.

Tambien se venderan 6 de 'Reserva' especiales siendo estos los afamados padres reproductores de la cabana.

Hoy que ya felizmente vemos la reaccion de la raza ovina fuente de la mayor riqueza para nuestro pais, invitamos a todos los Sres. estancieros a que acudan al remate de tanta importancia que damos en nuestra casa el dia Jueves 7 del corriente.

Por nuestra parte no hacemos ninguna recomendacion hacia la clase de los afamados carneros Rambooillets que rematamos, porque toda seria esteril comparada con la que conocen todos los Sres. estancieros que han comprado anotras carneros de dicha raza creados por el inteligente Sr. Don Manuel Bnavente. 6p s3

ROYAL VICTORIA
LAUNDRY BLUE.

Manufactured by
EHRENSPERGER AND CO.,
London,
And Sold by their Agents in
BUENOS AYRES
To all the Retail Grocers and Store Dealers in this City.

This excellent Blue is made in balls for the convenience of those who use it. There is thus no waste in broken pieces, and for this reason, as well as owing to its superior strength, it is acknowledged to be really the most economica and best Blue ever sold.

It is used, to the exclusion of all other marks by her Majesty's Laundress.

It imparts the most delicate white to Linen, Lawn, Cambric, Muslin, Lace, &c., and it is so entirely free from all impurities, that the most delicate fabrics are not injured by its use, but on the contrary, are vastly improved in appearance.

Every British Storedealer has supplies of this very superior article.

Ladies are respectfully requested to ask for the

A Splendid pair of pangarés Carriage Horses, and a very handsome Riding Horse (bayo clinblanca) for sale at Mr. Jones' stable yard, behind the Santo Domingo Church. 34, 3p., Sept 3.

HEADACHES Generally proceed from derangements of the stomach and liver, and no medicine yet discovered, so certainly, speedily, and thoroughly cleanses, tones, and regulates these organs as BRISTOL'S SUGAR COATED PILLS. Edward Warren, of Clinton Street, Brooklyn, writes, under date January 14, 1862;—"After having suffered eight years from constantly-recurring sick headache, two small vials of BRISTOL'S SUGAR COATED PILLS cured me. This was five months ago, and I have had no relapse." Mrs. Mary Wilson, wife of Robert Wilson, of Great Jones Street, New York, says: "Your Pills have restored me to the enjoyment of life. I had been in almost constant misery with bilious headache for many years. No medicine seemed to touch the complaint until I tried your Pills. They have not only banished the disease, but wonderfully improved my general health." In all cases arising from, or aggravated by impure blood or humors BRISTOL'S SARSAPARILLA should be used in connection with the Pills. 430,

TO FORTUNE SEEKERS.
A SPLENDID OPPORTUNITY.

The Proprietor of the well-known Cafe Restaurant Englaise, at the foot of the Ketiro hill, immediately in front of the Northern Railway Station, having important family affairs to settle in England, wishes to sell out. The house is doing a splendid run of business; is well fitted up with bed, bath, dining and sitting rooms. The position of the house, it is needless to say, cannot be better: in fact, such an opportunity is seldom to be met with in Buenos Ayres.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current we now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays an holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. p. ⅏ per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds Twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishe can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

CURTIS'S AND HARVEY'S GUNPOWDER.

REPORT OF THE SPECIAL COMMITTEE OF PARLIAMENT.

The superiority of this Gunpowder, especially for military purposes, has just been established, beyond all dispute, by the Report of the Special Committee of the British Parliament, which thus accredits its unequalled qualities:

"The powder first tried by the Committee in the Boxer-Henry Cartridge, and of which they entirely approve, is known as 'Curtis and Harvey, No. 6.' Several other descriptions manufactured at the Government Factory, Waltham Abbey, have also been tried, but have not afforded the same uniform accuracy of shooting.

"There appear to be difficulties, confined, it is believed, to the question of expense, in producing a powder at Eltham Abbey, in all respects equal to 'Curtis and Harvey, No. 6;' but the Committee, keeping in view the importance of maintaining the great accuracy shooting of the Martini Henry Rifle, recommend that no powder should be used for its ammunition that does not give results at least equal to those obtained in the Committee's experiments, whether such powder be obtained from the Government Factory or from the Trade.

Consulate
OF THE
North German Confederation,
AT MONTEVIDEO.

At conditions, established by Charter Party which will be exhibited at this Office, 32 Calle Zavalla, Sealed Tenders will be received for contracting the Charter of one or two first-class Vessels, ready to take on board the cargo of the German ship TONI, Captain Kohler, condemned in this Port, consisting of 500 Tons, more or less, Peruvian Guano, and convey same to the Channel for orders, to Hamburg, Rotterdam, or Antwerp.

About one-fifth of said cargo, deposited on shore, is damaged, according to report of Surveyors, named by the Consulate, and the Tenders will have to comply with instructions contained in said Report, exhibited in this Consulate.

The Tenders will have to state rate of freight, the day, when the Vessel will be ready to take cargo, and the number of days she will require for this operation. The cargo will be put alongside the vessel in the Port of Montevideo.

The Tenders will be opened in my Office, and in the presence of the interested parties, on THURSDAY, 7th of September next, at Noon.

HEALTH AND HAPPINESS
BY THE USE OF
BRISTOL'S SUGAR COATED VEGETABLE PILLS.

These Pills have justly acquired a widely extended reputation for their wonderful cures of severe cases of sickness—cases in which all other Medicines had failed, and which had been given up by Physicians as beyond help—such as confirmed and long-standing Liver Complaints, obstinate cases of Piles, Dropsy, &c. But while admitting their wonderful curative powers in difficult cases, we wish to call attention to their great value in the every-day diseases of life, such as Costiveness, for which they are a perfect specific; Headache relieved and cured by one dose; Indigestion always removed by them, and the stomach so toned and strengthened as to prevent a return. Bad Breath cannot exist when the stomach is cleansed by

BRISTOL'S SUGAR-COATED PILLS.

Purely Vegtable.

For Loss of Appetite they are the only sure remedy, as they never fail in carrying off the depraved bilious secretions that float in the stomach and destroy the healthy, natural cravings for food. Sour Stomach, Heartburn, Flatulency, and all Derangements of the Digestive and excretory Organs, are promptly relieved and cured by them. The public should always bear in mind that Bristol's are the only Pills made of

Podophyllin and Leptandria,

The only vegetable substances yet discovered that are really

Antibilious,

To the presence of which invaluable resinolds the extraordinary success of Bristol's Pills may in a great measure be ascribed. It is necessary, however, that the sick should always remember that in all diseases that have their origin in the blood.

BRISTOL'S SARSAPARILLA,

That best of blood purifiers, should be used with the Pills, the two Medicines being prepared expressly to act in harmony together. When this is done faithfully, we have no hesitation in saying that great relief, and, in most cases, a cure, can be guaranteed when the patient is not already beyond human help.

For general directions and table of doses, see the wrapper around each phial of Pills; but as different constitutions require different doses to produce the same effect, it is better that each person ascertain, by trial, the dose that suits their system, and take that dose, instead of following any general rule.
